WE THE PEOPLE

Union Marine Management Services Pte. Ltd was incorporated in January 2012 in Singapore with a unique concept of being Man-Managers and bringing a whole new dimension to the Ship Management concept. While we understand the importance of technology and it's definite advantage, our focus is always on the human force involved in using this technology. Every system and development is based on this philosophy. Whether it is onboard or on ships or our customers, we never forget we are dealing with people and our motive is always to develop long term fruitful relationships based on Mutual Trust and Mutual Benefit. Running Safe, Clean and Happy Ships is only a part of the journey - Please join us to experience the difference!
